

LET'S MAKE CONCORD WORK FOR YOU

I recently renovated my home into a quad-plex. I live in one unit, and I rent out the other three units. It really helps pay the mortgage and taxes.

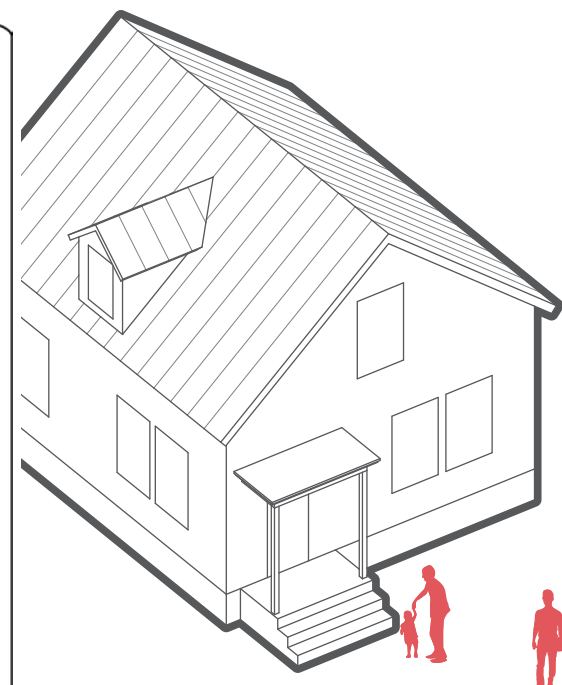

As a single mother, commuting to Concord from Pittsfield for work was a huge hassle that took almost two hours out of my day. Now that I live in this neighborhood close to work, I get to spend that time with my kids.

Four-Plex

As I got older it was getting harder and harder to live on my own. So my son and his family moved into my house, and I moved into the new backyard cottage. It's so wonderful to be so close to them. They help me with household chores and I get to see my grandson every day!

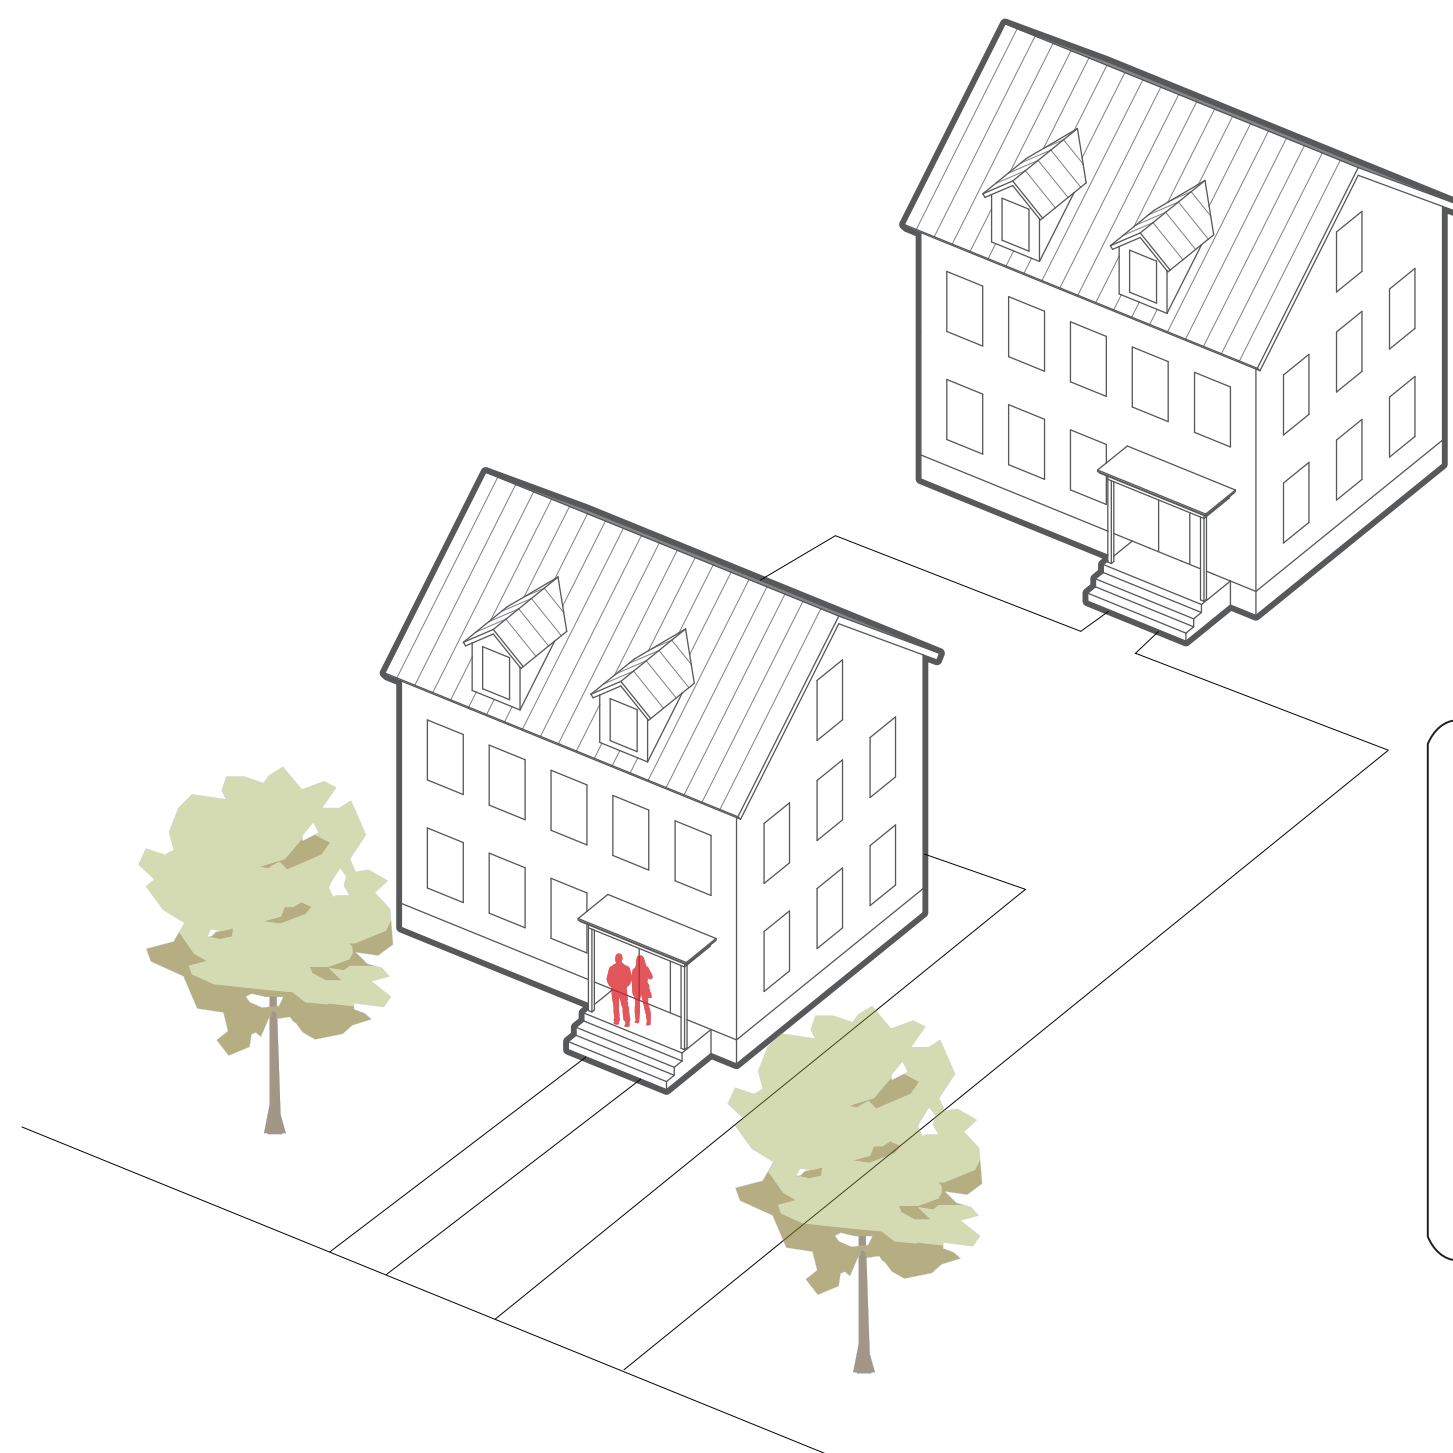

My wife is a nurse and I work from home. We're moving into my mom's house to help her take care of the place.

I'm so excited that our son will get to grow up in this wonderful neighborhood, and get to see his grandma every day!

House with Backyard Cottage

We were overwhelmed with how big our house was once our kids all moved out. Too much space for two people. So it's been so nice to be able to downsize our lives and move into this smaller home with newer features, without having to leave our neighborhood that our kids grew up in.

Front and Back Homes
